

PRE-QUALIFICATION DOCUMENTS

WHO WE ARE

Backed by a legacy in the global stone industry, Ronak International stands as a trusted name in the global stone industry. Our proven legacy and international reach have established us as a key force in the UAE market, offering an exclusive and sophisticated collection of natural and engineered stones.

We offer a complete portfolio of building materials, positioning ourselves as a one-stop destination for all construction and design requirements. Guided by principles of sustainability, innovation, and precision, our operations reflect a forward-thinking approach to modern architecture and interior design.

Through our advanced cut-to-size facilities, we provide bespoke solutions tailored to each client's vision, ensuring exceptional quality and consistency across every project. Our unmatched strength lies in our technical expertise, robust supply capabilities, and long-standing partnerships across diverse sectors.

Committed to competitive pricing, timely delivery, and uncompromising service, Ronak International continues to empower clients to build with confidence and shape a lasting future.

MISSION

To empower architects, designers, and builders with premium stone solutions that balance beauty, performance, and responsibility.

VISION

To shape a future where stone inspires timeless design & sustainable living through innovation, integrity, and enduring partnerships.

INTEGRITY

Doing business the right way, every time.

INNOVATION

Offering products that set trends, not follow them.

SUSTAINABILITY

Reducing environmental footprint and promoting responsible sourcing.

SHAPING GLOBAL STANDARDS IN STONE

Located within the Sajja Industrial Area, Ronak International operates from a sophisticated 115,000-square-foot distribution center. This state-of-the-art facility allows the company to efficiently manage the storage, handling, and distribution of a comprehensive range of premium natural and engineered stone products across the UAE and the wider GCC region.

The company maintains a robust inventory of more than 200,000 sqm. of stone stock at all times, offering over 250 distinct varieties to meet diverse project requirements with speed and reliability.

Architects, designers, engineers, and fabricators driving innovation and excellence as one.

DESIGN EXCLUSIVITY

A broad range of colors & textures to match every project style.

EXCLUSIVE DISTRIBUTOR OF FUGENSTONE UK

Fugenstone is a premium surface solutions company focused on the design, supply, and distribution of high-quality engineered stone surfaces for residential, commercial, and large-scale architectural projects. We offer a carefully curated portfolio of surfaces that balance sophisticated aesthetics with strength, durability, and everyday practicality, making them suitable for kitchens, bathrooms, workspaces, hospitality environments, and bespoke interior applications.

We believe a surface should be more than just practical, it should bring character and style into your space. That's why every slab of our quartz is crafted to combine beauty with everyday durability.

Every slab is the result of advanced technology combined with the world's finest raw materials, creating surfaces that balance durability with design. From kitchens and bathrooms to large-scale commercial projects, Fugenstone offers collections that inspire creativity and stand the test of time.

With a dedicated UK base and international reach, we serve the full spectrum of the construction and design industry - architects, interior designers, developers, and fabricators, delivering not just products, but complete solutions.

BACKED BY 25 YEARS WARRANTY

SUPPORTING GREEN BUILDING CREDITS ACROSS PROJECTS.

ENGINEERED FOR UNMATCHED DURABILITY & RESILIENCE

CERTIFICATIONS

Our certifications helps projects earn credits for leading green building standards, including LEED, Estidama Pearl, Al Sa'fat (Dubai Green Building), and Barjeel Green Building.

National Sanitation Foundation: We ensure that every product is rigorously tested to be non-toxic, easy to clean, and safe for use in kitchens, restaurants, and food-prep environments.

Conformité Européenne: Fugenstone meets the stringent requirements of European safety, health, and environmental regulations, ensuring superior quality and full compliance with EU directives.

Environment Product Declaration : We provide transparent, third-party certified data on its environmental impact throughout its lifecycle, supporting sustainable design and responsible material choices.

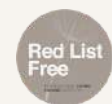

ISO 9001:2015 (Quality Management System) : We follow globally recognized standards to ensure every product meets the highest levels of quality, consistency, and reliability.

ISO 14001:2015 (Environmental Management System) : Our processes are designed to minimize environmental impact, promote sustainability, and comply with international environmental best practices.

ISO 45001:2018 (Occupational Health & Safety Management System): We are committed to providing a safe, healthy workplace by actively managing risks and protecting the wellbeing of our team.

Red-list Declaration : Our products are free from harmful "Red List" chemicals identified by the International Living Future Institute. By eliminating toxic substances of concern, we ensure our surfaces contribute to healthier interiors and more sustainable building practices.

At Rexion, we take pride in curating a vast collection of quartz and Nano Stone surfaces that cater to every design vision. Our portfolio boasts a stunning spectrum of colors, intricate patterns, and versatile finishes, perfectly suited for commercial projects.

We believe that beauty should never compromise functionality. That's why our surfaces come in a variety of finishes, from polished elegance to subtle textures, empowering you to achieve the perfect balance between aesthetics and performance.

With Rexion, experience a world where design sophistication meets practical innovation, a seamless fusion of style and substance for every space.

15 years of assured performance, Rexion Surfaces are engineered to stay strong, stable, and stunning.

PROJECT SUPPORT DONE RIGHT

Our cut-to-size surfaces are designed to deliver precision, aesthetic consistency, and seamless integration across a wide range of environments. Our comprehensive edge-finishing options, including elegant bullnose, clean eased, sharp bevelled, and seamless mitered profiles, are crafted to complement every design intent. These profiles do more than finish a surface; they enhance detailing, creating a sophisticated, intentional look for every application.

We support projects from material selection to final execution, working alongside architects, designers, and contractors to ensure accuracy, quality, and a seamless outcome.

ORGANIZATIONAL CHART

QUALITY CONTROL PROCESS

At Ronak International, our philosophy is rooted in an unwavering dedication to Excellence in Marble and Natural Stone Craftsmanship. This commitment goes beyond simply supplying materials; it defines our operational structure, our investment in technology, and our relationship with every client.

OUR PEOPLE: THE FOUNDATION OF CRAFTSMANSHIP

Our team is our greatest asset. It comprises skilled professionals - from master stone fabricators and CAD engineers to certified QA/QC inspectors, who are meticulously trained and highly experienced in the global stone industry.

- **Expertise and Certifications:** Our personnel are not just experienced; they are trained and certified in industry-leading best practices, including dimensional tolerance standards, material testing, and advanced stone installation techniques.
- **Knowledge Transfer:** We uphold a culture of continual learning, ensuring that the latest international trends, technological advancements, and stone care practices are integrated into every stage of our work, translating into superior quality for every project.

QUALITY CONTROL PROCEDURES

DESIGN INTENT CONTROL

Ronak International conducts a meticulous review of project designs, specifications, and proposed natural stone selections. This process includes a detailed assessment of finish, thickness, dimensions, and quantities to ensure a complete understanding of project requirements and client expectations.

Our team of experts works closely with clients to guide optimal material selection, providing informed recommendations should any concerns arise regarding aesthetics, performance, durability, or availability. This collaborative approach ensures that the final outcome meets the highest standards without compromise.

The following outlines the procedures we follow to uphold this commitment to excellence.

SLAB INSPECTION

Upon arrival at our yard, each natural stone slab undergoes a thorough inspection to ensure quality and compliance with project requirements. This inspection includes:

- Verification of background color and tonality against the approved project range
- Detection of visible cracks or imperfections
- Confirmation of slab dimensions
- Assessment of the direction and orientation of any blemishes

CUT TO SIZE & DRY LAYER

Each natural stone slab is carefully checked for thickness, color/tonality range and blemishes before being directed to the cut to size operation.

QUALITY CONTROL PROCEDURES

SPECIAL OPERATIONS:

Some pieces may require additional labor items after being cut to size and therefore pieces would be directed to the respective machinery or finishing places.

SLAB CONTROL:

- The pieces are packed in wood crates made out of hardwood such as Birch or Maple. The wooden crates are ordered in advance to accommodate the sizes of completed pieces.
- Each piece would be thoroughly checked against the approved color/tonality range before packing.
- And accuracy of the labor items before packing. Any piece outside the color/tonality range and or being outside the required sizes and tolerances would be rejected.
- The wooden crate would have polystyrene linen to prevent the natural stone's staining from contact with the wood and prevent the natural stone damage during transportation.
- Pieces would be packed with plastic foam spacers in order to avoid scratches or damages during transportation.
- All pieces would be covered with a polyethylene sheet before closing the top of the crate in order to avoid the accumulation of dust, dirt, water etc.
- Each crate would have a label showing its number and the stone mark packed in it. The label is protected in a plastic bag.

QUALITY CONTROL PROCEDURES

INDEPENDENT INSPECTOR:

The client may nominate an independent inspector who will be monitoring the natural stone fabrication and its quality. Ronak International would give access to the independent inspector to perform his tasks to the extent of his contact.

DOCUMENT CONTROL:

All inspection requests, communication concerning quality, and actions towards it, will be maintained for you to look over.

Copies to all concerned will be dispatched and filed. Periodical inspections are to cover all aspects of:

- Material storing.
- Material Selection
- Material fixing at sites.
- Tools quality

Notes arising from these inspections are to be summarized and copied to all concerned. Actions regarding these notes are to be publicized to department needs and all involved.

QUALITY CONTROL PROCEDURES:

- Method statement (submitted separately)
- ITP (submitted separately)

NON CONFORMANCES

A. NATURAL STONES

Marble and granite materials received from abroad that is non – conformant with samples and / or specifications will be thoroughly tested. In case the discrepancy is tolerable, the consultant shall be contacted and presented with fresh test results for further approval. In case the discrepancy is high, the material will never be presented. The supplying company will be contacted in both cases and remedy is requested.

B. ADDITIVES

Only approved brands of bonding agents, grouts, and related materials will be used for this project. Submission and approval of samples, technical datasheets, and test results are mandatory before use. Any proposed changes to the approved specifications must be communicated by the supplier to the project team and receive formal approval prior to implementation.

C. WORKFORCE & PROCEDURES

All personnel involved in the project, including masons, helpers, and drivers will undergo an induction course covering the scope and nature of work. Experienced masons will receive additional detailed briefings. A logistics and information communication plan will be established to ensure clarity of responsibilities and tasks. Any non-conformance in quality, safety, or schedule will be investigated, the root cause determined, and corrective actions implemented promptly.

CAR (CORRECTIVE ACTIONS)

Each non conformance case will be dealt with to ensure it will not recur. The NCR report will be copied to all concerned reaching the head of the pyramid. The file will remain active until a corrective action report is done and approved and proved satisfactory.

SITE MEETINGS:

Internal site meeting :

A regular site meeting headed by the project engineer to receive comments and hear out the obstacles will be made, and in turn to generalize plan of action and the strategy of works. Site Engineers, Foremen are to attend and implement decisions, whether disciplinary, quality or logistic.

Project site meeting :

A weekly site meeting held with the project manager and the consultant in which information about the progress of works are reciprocated. Submittals, general conditions and inter communication with other contractors are discussed. Obstacles are highlighted in order to optimize work production.

HANDING OVER

Having attended all comments of the consultant during the course of work, we will prepare a check list for the final hand over, mainly consisting of :

- Site clearance by contractor.
- Approved inspection for fixed marble.
- Approved inspection for final handing over.

HEALTH & SAFETY POLICY STATEMENT

Safety and Wellbeing - A Cornerstone of Our Success:

Ronak International recognizes the paramount importance of the health, safety, and well-being of our employees. We believe these factors and the security of our facilities and assets form the cornerstone of our continued success. We are committed to a proactive safety culture, minimizing risks through comprehensive measures. This includes implementing a robust Health, Safety, and Environment (HSE) plan and utilizing relevant technologies to ensure a safe work environment.

Shared Responsibility for a Safe Workplace:

Employees play a vital role in maintaining a safe work environment. We foster a culture of safety where everyone is encouraged to fully cooperate in adhering to all safety rules, regulations, and the HSE plan.

Investing in Your Well-being:

Ronak International is dedicated to providing all our employees with a safe and comfortable work environment. We invest in your well-being by offering the necessary training and resources to prevent accidents and promote a culture of safety as a shared responsibility.

STANDARDS & PROTOCOLS

Our organization upholds the highest standards of safety across all operations. To ensure a secure, efficient, and responsible working environment, the following protocols are strictly implemented:

- Enforcing the mandatory use of appropriate Personal Protective Equipment (PPE), including hard hats and safety boots as minimum requirements.
- Allowing only qualified and authorized personnel to operate machinery, electrical systems, or perform any specialized technical tasks.
- Ensuring all equipment is fully de-energized and secured after working hours.
- Maintaining clean, accessible, and obstruction-free corridors, work areas, and shared facilities at all times.
- Securing all tools and equipment in designated storage areas to prevent misuse or accidents.
- Reporting any hazards, unsafe conditions, or potential risks immediately to the safety officer or management.
- Following all directives issued by the safety officer and complying with established safety procedures.
- Maintaining a smoke-free environment across all factory and site areas.
- Prohibiting the possession or consumption of alcohol or drugs on company premises.
- Promoting a respectful, cooperative, and conflict-free workplace environment to support overall safety culture.

Certificate of Compliance

CE

We hereby declare that the technical files of all the items in each product group complies with the requirements of the Council Directive on **The Construction Products Regulation (EU) 2024/3110**

Certificate No.: CE – 7351

Manufacturer : FUGEN UK LIMITED

Address : 79 COLLEGE ROAD, HARROW, HA1 1BD

Products : QUARTZ SURFACES

Complies with the requirements applicable to it

The quality system file has been assessed, approved and is subject to continuous surveillance according to the Council Directive on **The Construction Products Regulation (EU) 2024/3110**

This certificate is issued under the following conditions:

1. It applies only to the quality system maintained in the manufacture of above referenced models and it does not substitute the design or type-examination procedures, if requested.
2. The certificate remains valid until the manufacturing conditions or the quality systems are changed.
3. The certificate validity is conditioned by positive results or surveillance audits.

The CE mark as shown above can be used, under the responsibility of the manufacturer, after completion of an EC Declaration of conformity and compliance with all relevant EC Directives. The statement is based on a single evaluation of test report of one sample of above mentioned product. It does not imply an assessment of the whole production.

Validity of this certificate can be verified at www.ukcertifications.org.uk/verify

Date of Certification	13th December 2025
1 st Surveillance Audit Due	12th December 2026
2 nd Surveillance Audit Due	12th December 2027
Certificate Expiry	12th December 2028

Authorised Signatory

This certificate is the property of UK Certification & Inspection Limited and shall be returned immediately on request.

PROJECT PORTFOLIO

PRIVATE OFFICE, AL MANAR TOWER, BUSINESS BAY

Executed the supply and installation of elegant porcelain flooring and marble countertops, creating a sophisticated aesthetic for a private office space.

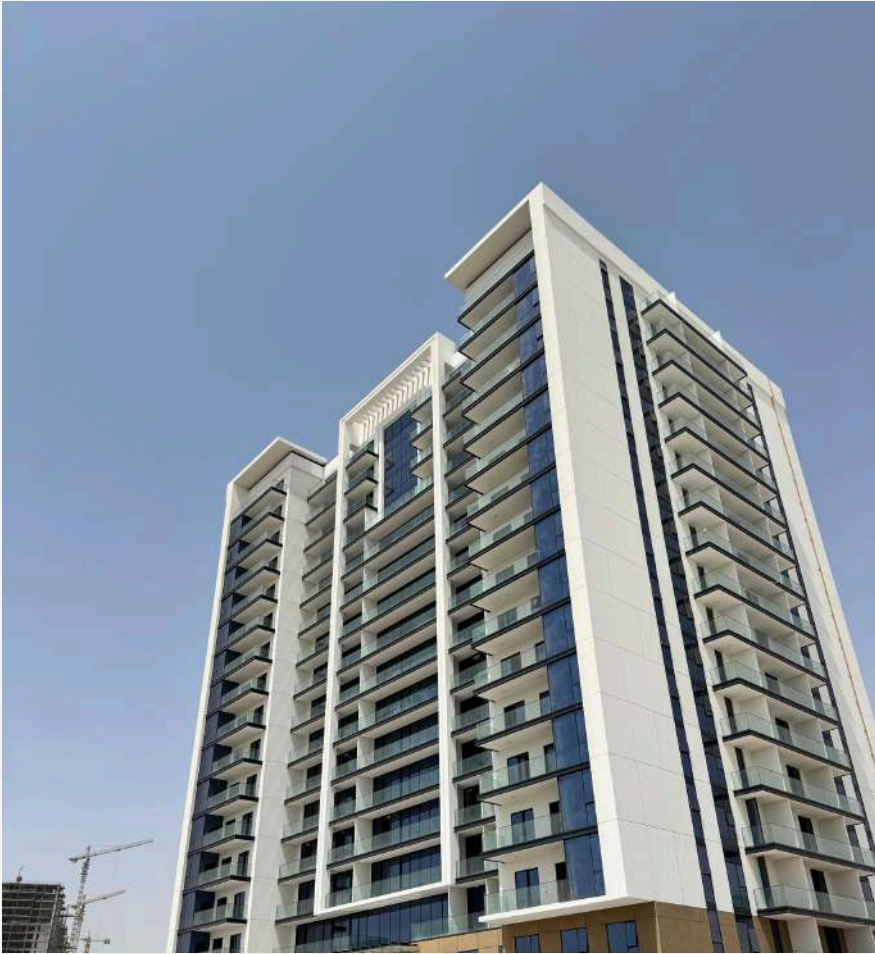

AL MAJLIS PROJECT

Executed the Al Majlis Project across four iconic locations: Al Awir, Al Warqaa, Al Barsha, and Nad Al Sheba. From premium supply to professional installation, Ronak International transformed these spaces using a masterfully curated selection of natural stones and Quartz.

LEGENDS, DUBAI

Supplied 3,500 premium slabs for kitchen countertops and backsplashes, elevating the project with a seamless and luxurious finish.

PRIVATE OFFICE, SAHARA HEALTHCARE CITY

Executed the supply and installation of Quartz, Natural stones and Marbles, creating a sophisticated aesthetic for a private office space.

ARGO TOWER, AJMAN

Delivered a refined blend of granite, porcelain flooring, and quartz surfaces, enhancing the reception counter, kitchen, and wet areas with a seamless balance of elegance and functionality.

SHARJAH UNIVERSITY

Stones supplied for Sharjah University across flooring, vanities, staircases and related applications. Executed in line with project specifications, ensuring consistency and long-term performance across all areas.

PRIVATE VILLA, SHARJAH

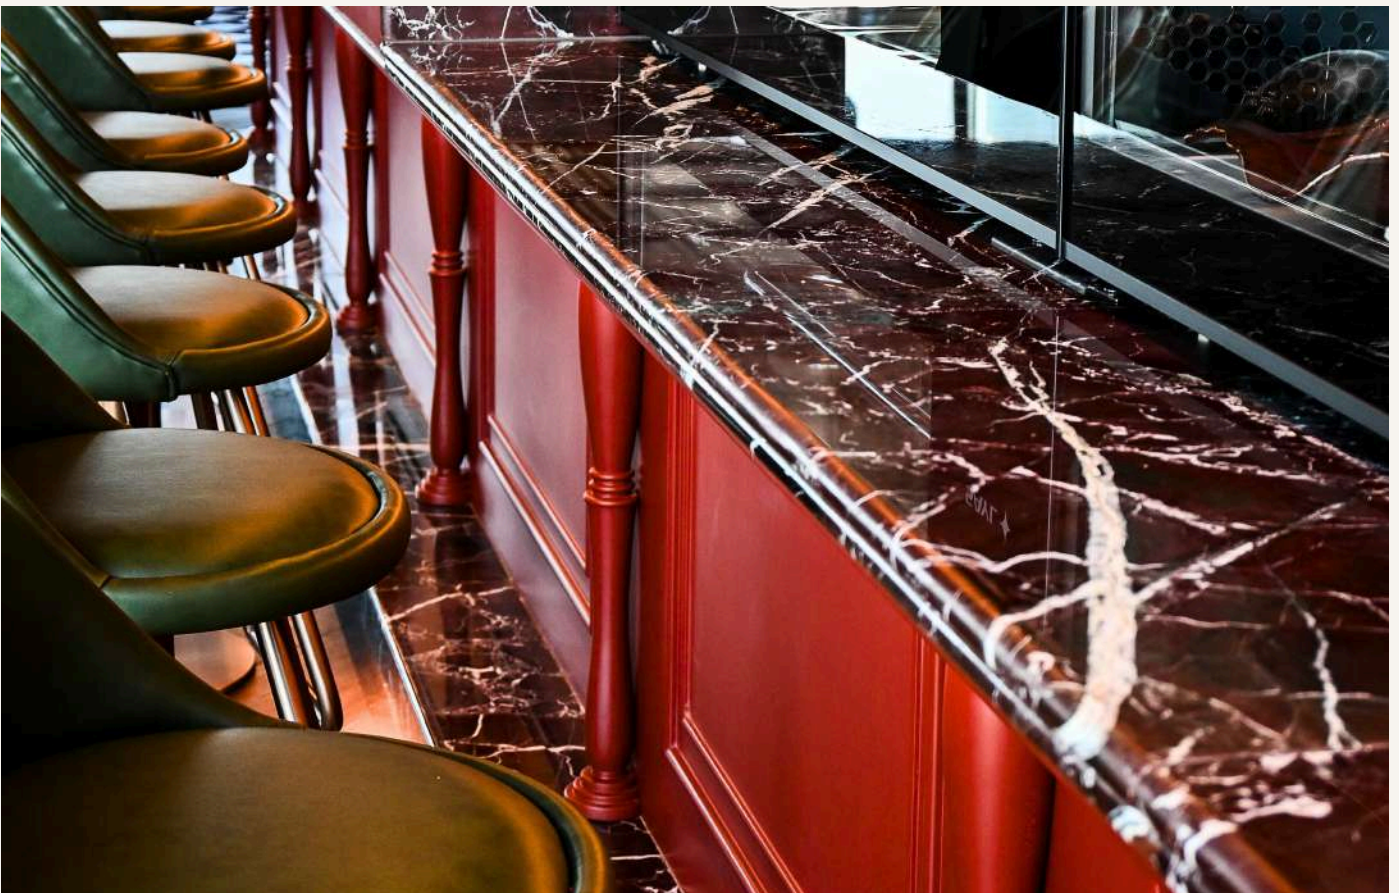

Comprehensive supply and expert installation of Viscont White Granite for the villa's main entrance treads and risers, as well as the back entrance, enhancing both elegance and durability.

GEISHA, EMIRATES FINANCIAL TOWER

A statement-making restaurant interior featuring Rosso Levanto slabs for the main bar countertop, service tabletops, and DJ table, combining bold elegance with durable, high-performance surfaces.

PRIVATE VILLA PROJECT

—

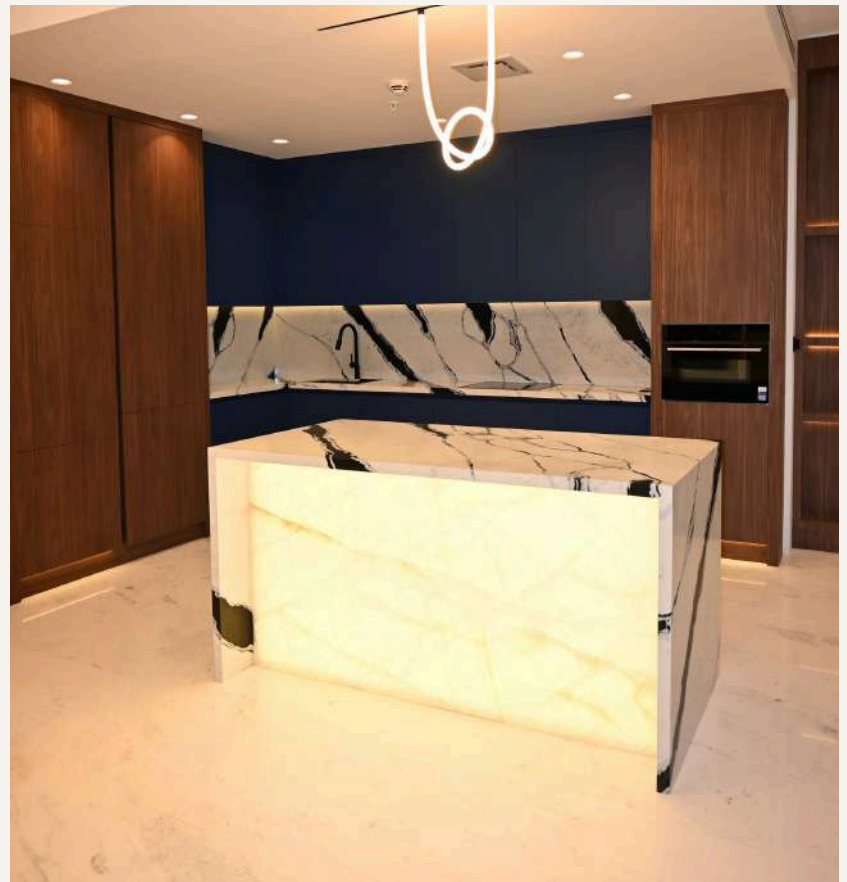

A striking center table, wall cladding crafted by merging contemporary design with the natural elegance of stone.

RESIDENTIAL PROJECT

A high-end residential project featuring bespoke staircases, kitchen countertops, island units, and side tables, expertly executed using premium quartz and onyx surfaces

RITUAL CAFE, AL AIN

Full supply and expert installation of Avocatus Quartzite and Costa Esmeralda Onyx for a beautiful and serene interior.

KITCHEN PROJECT

A luxurious kitchen designed with Calacatta Oro Quartz, where timeless elegance meets modern functionality for a statement-making culinary space.

KITCHEN PROJECT

A modern kitchen featuring Fugenstone, combining sleek design with enduring elegance of Statuario for a truly luxurious culinary space.

KITCHEN PROJECT

A modern kitchen featuring Pandora Quartz by Fugenstone, combining sleek design with enduring elegance for a truly luxurious culinary space.

KITCHEN PROJECT

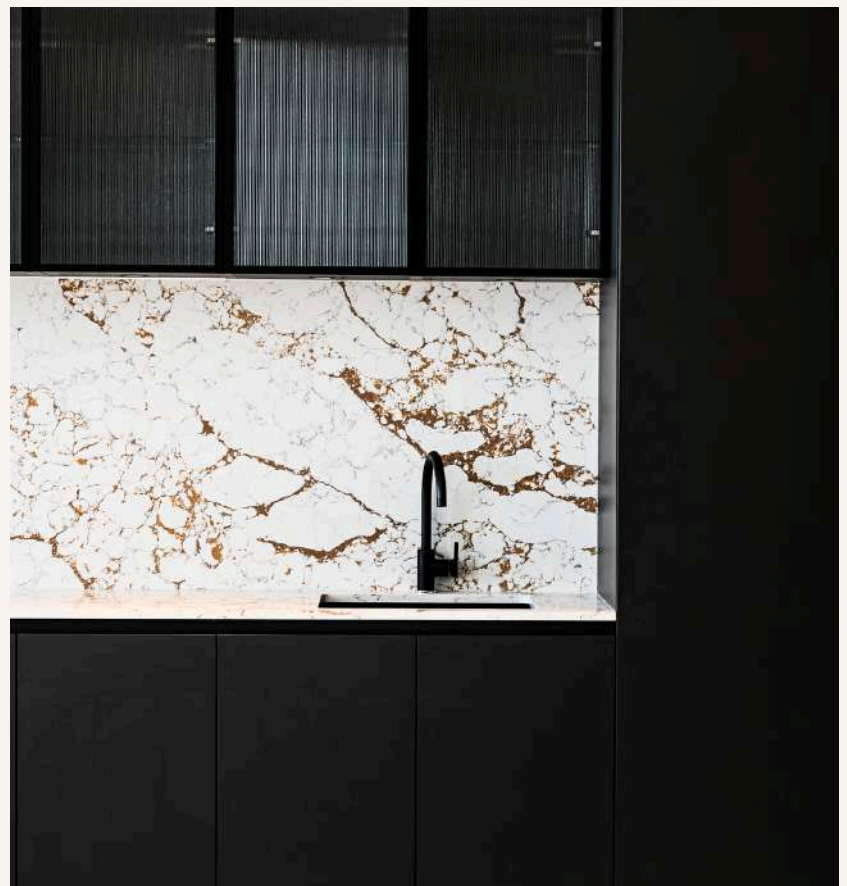

A sophisticated kitchen crafted with rich Macaubas Quartz by Fugenstone, blending warmth, durability, and modern elegance for everyday luxury.

KITCHEN PROJECT

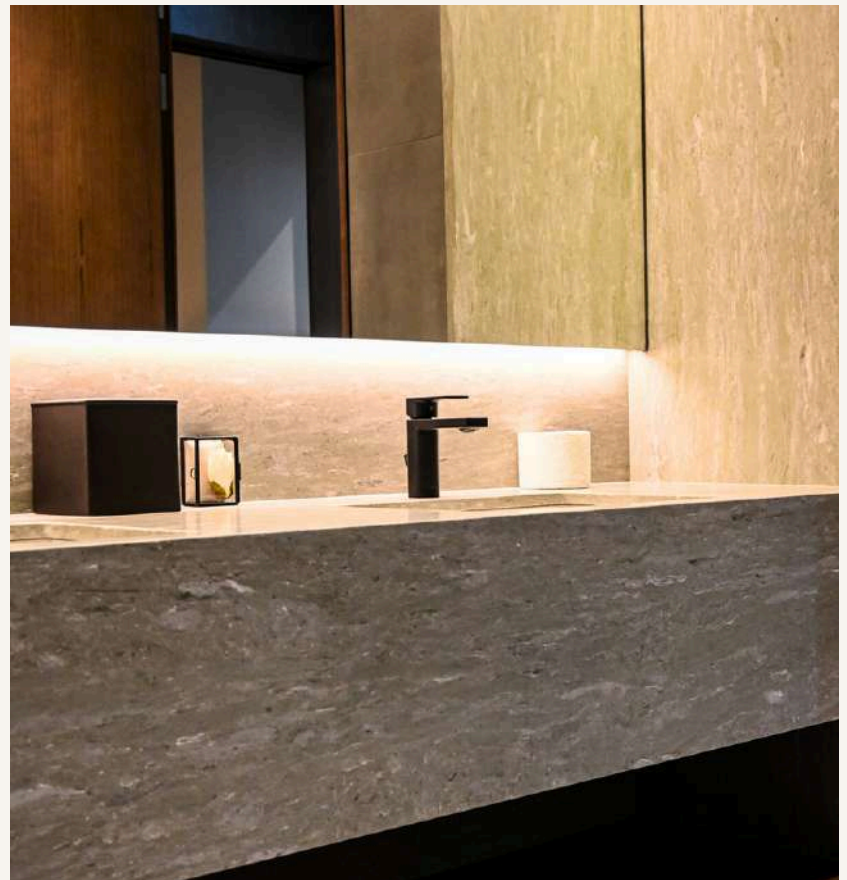

Luxurious kitchens designed with Jumeirah Quartz, where timeless elegance meets modern functionality for a statement-making culinary space.

PROJECT ARADA

Executed the supply and installation of Olive for a beautiful island and counter in the kitchen and vanity elevating the project with a seamless and luxurious finish.

KITCHEN PROJECTS

Luxurious kitchens designed with Quartz, where timeless elegance meets modern functionality for a statement-making culinary space.

ONGOING PROJECTS

SAADIYAT LAGOON, ABUDHBAI

926 villas adorned with the unparalleled elegance of Bellamont Quartz, setting a new standard in luxury living.

DAMAC LAGOON, DUBAI

400 villas exquisitely crafted with Brown Cemento Quartz & Steel Grey Granite, exemplifying modern elegance and refined luxury.

PRESCOTT DEVELOPMENTS - SERENE GARDENS, DUBAI

Serene Gardens 1 & 2 and Discovery Garden, featuring exquisite Travertine Stone from Turkey for exterior wall cladding, elevating each façade with timeless elegance.

BINGHATTI PROJECTS

We have multiple stone installation and supply projects across commercial and high-end developments. Our ongoing works include travertine installation at the HQ Tower and external travertine cladding installation for the Experience Centre. We are also undertaking the supply and installation of internal travertine cladding, ensuring compliance with approved specifications and quality standards. Additionally, we are executing the supply and installation of Black Galaxy granite cladding for the Jacob & Co. project, as well as the supply and installation of White Wood vanity counters for the Skyrise Building.

HQ TOWER, BINGHATTI

BINGHATTI EXPERIENCE CENTER

BINGHATTI JACOB AND CO.

BINGHATTI SKYRISE

SOBHA MALL & VARIOUS OTHER PROJECTS

We are an active supplier of various materials to multiple projects executed by Sobha Realty.

DAMAC CHIC TOWER

DAMAC LAGOON MOROCCO VILLA
